- Plans to divest certain lower yielding properties in order to realize the value of mature buildings or where buildings no longer fit into updated strategy.
- Active portfolio management should ensure properties are not only attractive for tenants, but also in balance with the environment from a social and sustainable perspective.
- Divestments to reach ~EUR 1 billion for reinvestment into assets according to strategy update and repayment of debt.
- In closer integration of the entire CPI group, IMMOFINANZ pursues a retail and office focused strategy; targeted acquisitions will involve properties from CPI matching the strategy.

Annual shareholder meeting for financial year 2021

- Taking into consideration the outflow of liquidity due to the exercise of CoC-rights of bondholders of the corporate bonds of IMMOFINANZ and the overall macroeconomic and regional situation, CPIPG decided not to support a proposal to the shareholders' meeting for the distribution of dividend payments for the financial year 2021.
- The annual shareholder meeting will take place on 12 July 2022 as virtual meeting.

Guidance for the financial year 2022

- Change-of-Control (CoC) events for the two corporate bonds 2023 and 2027 led to a short-term liquidity requirement of ca. MEUR 569.
- As the amount of this liquidity outflow had an impact on the guidance previously issued by IMMOFINANZ for business development in 2022, the guidance was revised.
- Based on the strategy update, IMMOFINANZ will announce a new guidance in the second half of 2022.
