4. MANAGEMENT RESPONSIBILITIES

- 4.1 The overall responsibility for the pursuing of this Policy rests with the Management Board of CPI Europe AG that acts through the Compliance Officer. The Compliance Officer reports to the Management Board of CPI Europe AG on a regular basis.

5. MONEY LAUNDERING AND TERRORIST FINANCING

- 5.1 Money laundering is defined broadly and includes concealing, converting, transferring, acquiring, participating in or using the proceeds of any crime. Proceeds of crime include any benefit, which flows from any criminal offence, no matter how minor or insignificant.
- 5.2 Terrorist financing may be defined as providing money or other property, whereas such money or other property is likely to be used for the purposes of terrorism or for the processes of the commission of acts of terrorism. However, such money or other property itself does not necessarily need to come from illegal proceeds or activities.

6. CORE AML AND CTF PRINCIPLES

- 6.1 In respect of the AML and the CTF, the Group never:
 - (a) tolerates money laundering or terrorist financing; and
 - (b) ignores or hides evidence or suspicions of money laundering or terrorist financing.
- 6.2 On the other hand, the Group:

- (a) vigilantly looks out for any suspicious activity suggesting that money laundering or terrorist financing is occurring or connected to any transaction;
- (b) reports money laundering or terrorist financing risks in its business and is committed to continually improving systems and processes to reduce money laundering and terrorist financing risk exposure;
- (c) understands the AML and the CTF obligations and ensures that its Agents, Business Partners and their UBOs are identified in accordance with the CDD and the KYC standards and applicable laws; and
- (d) takes any breaches of the AML and the CTF regulations and policies seriously.

7. REPRESENTATIVES TRAINING AND AWARENESS

- 7.1 The Group provides the AML and the CTF training to all Representatives who are, due to nature of their role in the Group, exposed to higher probability of encountering money laundering or terrorist financing in their day-to-day conduct.

8. IMPLEMENTATION OF CDD AND KYC

- 8.1 The Group has established a risk-based system to identify potential money laundering and terrorist financing risks to which the Group may be exposed.
- 8.2 The collection of sufficient information on the Business Partners is ensured through the implementation of comprehensive processes. After completion of the CDD process, the Group has sufficient knowledge of the identity of the Business Partners, the activities of the Business Partners and the reasons for the selection of the Group.
- 8.3 Based on the KYC information obtained in the course of the CDD, the Group is able to create a risk profile of the customer. This risk profile helps to decide whether to establish, continue or terminate a business relationship and what action to take. The requirements for the type and scope of information that the Group must obtain and review increase with the risk associated with a business relationship. This implies that the extent of due diligence may be reduced if the risk associated with the business relationship is considered to be low.
- 8.4 In assessing the risk of money laundering and terrorist financing, the following points will be taken into account:
 - The purpose of the business relationship;
 - Size/amount of the proposed transaction;
 - Regularity and duration of the business relationship.

Risk factors relating to Business Partners, countries or geographical areas, products, services, transactions, distribution channels and other new or developing technologies should be considered. These risk factors may indicate a potentially lower or higher risk.

- 8.5 In line with the AMLD, the Group applies three different levels of the CDD and the KYC – Simplified, Standard and Enhanced, whereas:
- 8.5.1 Simplified level is applied, where the Agent or the Business Partner poses a very low risk of money laundering or terrorist financing (e.g., companies listed on any European regulated market);
 - 8.5.2 Standard level is applied to the Agents and the Business Partners that do not fall in either the low or high risk category; and
 - 8.5.3 Enhanced level is applied to the Agents and the Business Partners that fall in high-risk category, which includes the following Agents and Business Partners:
 - (a) if they are the PEPs, or if they are a corporate entity or structure owned or controlled by the PEP;
 - (b) those established (in case of legal entities) or resident (in case of individuals) in the jurisdictions designated by the European Commission in the delegated regulation pursuant to the AMLD, or those established in any other territory under the Sanctions;
 - (c) those involved in a transaction that is very complex or unusually large, or where there is an unusual pattern of a transaction, where it has no apparent economic or legal purpose; and
 - (d) any other case, which by its nature can present a high risk of money laundering or terrorist financing.

9. GROUP-WIDE INFORMATION SHARING

- 9.1 Companies within the Group and their Representatives put forth best endeavours to share the information about the Agents and the Business Partners among Group companies and their Representatives, where technically and legally possible, to ensure the Group's compliance with the AML and the CTF applicable laws.

10. FINAL PROVISIONS

- 10.1 The Management Board of CPI Europe AG shall regularly revisit and reevaluate this Policy in light of development of the Group's business and applicable laws.
- 10.2 Any violation of this Policy must be immediately reported to the Compliance Officer or via the Group's whistle-blowing system.

- 10.3 The Group will take seriously and investigate all reports of potential violation of this Policy to ensure that proper step or measure is taken.
- 10.4 Each Representative of the Group shall sign off this Policy on an annual basis.
- 10.5 Violation of this Policy by any Representative may constitute a breach of the terms and conditions of employment or other relationship of such Representative with the Group, and thus such Representative may be subject to disciplinary action, which, depending on the nature of the violation, may range from a warning or reprimand to termination of employment or other relationship and, in appropriate cases, civil legal action or referral for regulatory or criminal prosecution.
- 10.6 This Policy was approved by the Management Board of CPI Europe AG on 5 February 2024.
