Item 10 of the agenda:

Resolution on the authorisation of the Executive Board to issue convertible bonds and regarding conditional capital.

Authorisation of the Executive Board to issue convertible bonds and exclusion of the shareholders' subscription rights, together with the revocation of the existing authorisation to issue convertible bonds in the unused amount as well as cancellation of existing conditional capital in the unused amount as resolved upon at the shareholder's meeting of 20 May 2025 (Article 4 para (5) of the Articles of Association) and conditional increase of the share capital (section 159 para 2 item 1 Austrian Stock Corporation Act) as well as corresponding amendments to the Articles of Association in Article 4 (Registered Capital and Shares).

1. Authorisation of the Executive Board to issue convertible bonds (issue authorisation)

The Executive Board and the Supervisory Board propose the following resolutions with respect to the authorisation to issue convertible bonds (issue authorisation) as well as the revocation of the existing authorisation to issue convertible bonds in the unused amount:

- 1.1. The authorisation of the Executive Board granted in the ordinary shareholders' meeting on 20 May 2025 to issue convertible bonds shall be withdrawn in the unused amount and the Executive Board shall be authorised for a period of five years starting with the date of the resolution, with the consent of the Supervisory Board, to issue convertible bonds up to a total nominal amount of EUR 716,215,185.18 with conversion and/or subscription rights in respect of up to 13,866,971 ordinary bearer shares of the company representing a pro-rata amount of the share capital of the company of up to EUR 13,866,971.00, also in several tranches and to determine all other terms of the convertible bonds as well as in respect of the issuance and the conversion procedure. The convertible bonds may be issued against cash and also for contribution in kind. The shareholders' subscription rights are excluded. The authorisation to issue convertible bonds may also be exercised repeatedly. In that case the total number of (i) the shares already issued to holders of convertible bonds according to this authorisation and (ii) the shares in relation to which conversion and/or subscription rights may be exercised out of convertible bonds already issued and out of convertible bonds that may be issued pursuant to the repeated exercise of the issuance authorisation, must not exceed the total maximum amount set out in this resolution. The same applies mutatis mutandis for the total nominal amount of the convertible bonds set out in this authorisation. The fulfilment of the conversion and/or subscription rights can be effected through conditional capital, authorised capital, out of treasury shares or by way of delivery from third parties or a combination thereof.
- 1.2. The Executive Board shall be authorised with the consent of the Supervisory Board to determine, in accordance with the provisions of the Austrian Stock Corporation Act, the terms of issuance and the terms and conditions of the convertible bonds, in particular interest rate, issue price, maturity and denomination, dilution adjustment, conversion period and/or conversion date, conversion rights and/or conversion obligations, conversion ratio and

conversion price as well as the terms for conversion and/or subscription. In particular, the following terms and conditions (or a combination thereof) may be provided for:

- (i) additional cash payment and consolidation or cash settlement for fractional amounts that cannot be converted;
 - (ii) fixed or variable conversion ratio or the determination of the conversion price within a specified range dependent on the company's share price development during the term of the convertible bonds;
 - (iii) the company's right, in case of conversion (exercise of the conversion and/or subscription right) not to deliver shares, but to pay an adequate cash amount on the basis of the company's share price;
 - (iv) the company's right to redeem the convertible bonds prior to maturity at the nominal amount and also to grant a compensation for the premature termination to the convertible bond holders;
 - (v) the right of the convertible bond holders to request redemption of the convertible bonds prior to the maturity date at the nominal amount and if applicable also to receive a compensation for the premature termination; or
 - (vi) the conversion obligation (conversion and/or subscription obligation) at the maturity date (or at another date) or the company's right to wholly or partially deliver shares of the company to the holders of convertible bonds.
- 1.3. The convertible bonds may also be issued by a directly or indirectly wholly owned subsidiary of CPI Europe AG; in such case, the Executive Board shall be authorised, with the consent of the Supervisory Board, to issue a guarantee in respect of the convertible bonds and, in case of conversion to deliver shares of the company.
- 1.4. The price of the convertible bonds shall be determined with regard to market-standard calculation methods in a market-standard pricing procedure. The price (issue price) of the convertible bonds thereby has to be determined by the price (issue price) of an ordinary fixed-interest bond and the price for the conversion rights taking into consideration the other terms and conditions. The issue price of a bond is determined on the basis of market-standard calculation methods subject to maturity of the bond, interest rate, current market interest rate as well as considering the credit rating of the company. The value of the conversion and/or subscription right is calculated by means of option price calculation, in particular considering maturity/exercise period, share price development (volatility) or other financial ratios as well as the relation of the conversion and/or subscription price to the share price. Further conditions, e.g. rights of early redemption, a conversion obligation and a fixed or variable conversion ratio are to be considered.
- 1.5. The issue price of the shares issued upon exercise of conversion (exercise of the conversion and/or subscription right) and the conversion and/or subscription ratio shall be determined with regard to market-standard calculation methods and the stock market price of the shares of the company (basis of the calculation of the issue price); the issue price must not be below the pro-rata amount of the share capital.

2. Cancellation of existing conditional capital

The Executive Board and Supervisory Board propose the following resolution to cancel conditional capital to the extent not utilised:

The conditional capital increase (section 159 para 2 item 1 Austrian Stock Corporation Act) as resolved upon by the shareholders' meeting of 20 May 2025 by up to EUR 13,866,971.00 for the issuance of up to 13,866,971 new bearer shares of the company (Article 4 para (5) of the Articles of Association) shall be cancelled in the unused amount.

This conditional capital is not required to secure conversion and/or subscription rights of convertible bonds issued by the company:

The authorisation to issue convertible bonds (section 174 para 2 Austrian Stock Corporation Act) referred to as purposes of the conditional capital is revoked with this resolution. On the basis of this authorisation no convertible bonds have been issued.

Thus, the conditional capital is no longer required. Conversion and/or subscription rights are not hampered or endangered due to the cancellation of the conditional capital. Hence, the conditional capital can be cancelled.

3. Conditional capital increase

The Executive Board and the Supervisory Board propose the following resolution on the conditional capital increase:

3.1. The share capital shall be conditionally increased in accordance with section 159 para 2 item 1 Austrian Stock Corporation Act by up to EUR 13,866,971.00 by issuance of up to 13,866,971 new ordinary bearer shares. The purpose of the conditional capital increase is the issue of shares to holders of convertible bonds issued by the company on the basis of the resolution of the shareholders' meeting of 05 May 2026. The issue price and the conversion and/or subscription ratio shall be determined with regard to market standard calculation methods and the stock market price of the shares of the company (basis of the calculation of the issue price); the issue price must not be below the pro-rata amount of the share capital. The Executive Board shall be authorised, subject to the approval of the Supervisory Board, to determine further details of the execution of the conditional capital increase (especially issue price, rights attached to the shares, dividend entitlement). The Supervisory Board shall be authorised to resolve upon amendments of the Articles of Association resulting from the issuance of shares from the conditional capital.

3.2. The Articles of Association are amended in Article 4 (Registered Capital and Shares) to the effect that para (5) shall read as follows:

“(5) The share capital shall be conditionally increased in accordance with Section 159 para 2 item 1 Austrian Stock Corporation Act by up to EUR 13,866,971.00 by issuance of up to 13,866,971 new ordinary bearer shares. The purpose of the conditional capital increase is the issue of shares to holders of convertible bonds issued by the Company on the basis of the resolution of the shareholders' meeting of 05 May 2026. The issue price and the conversion and/or subscription ratio shall be determined with regard to market standard calculation methods and the stock market price of the shares of the
